

# KNIFESTYLES OF THE RICH & FAMOUS

2010

Gone are the days of tanning and getting tipsy for *Jersey Shore* alum Nicole “Snooki” Polizzi — she’s now a suburban mom of two. And to complete her transformation, the 28-year-old is turning to nip-tuck pros to help erase the physical effects of all that boozing in the sun, including enlarged pores, wrinkles and dehydrated skin. While the reality star recently Snapchatted a trip to her doctor’s office for Botox and lip injections, *Life & Style*’s experts also see evidence of facial fillers and laser treatments. “She’s likely using filler under her eyes to eliminate dark cir-

“She looks 100 percent Botoxed.”

— Dr. Tabasum Mir

cles,” notes Dr. Tabasum Mir, adding that the injectable has also seemingly evened out the loss of volume in her face after Snooki shed 40 pounds. The dermatologist, who does not treat Snooki, believes lasers have smoothed out premature lines and dark spots. And plastic surgeon Dr. John Zannis (also not her doc) thinks additional laser work could’ve been done to correct the oversize pores on her cheeks. So is the always candid Jersey girl overdoing it? “I’m in my prime right now,” asserts the star. “I want to be as hot as I can!” **LS**

NOW

## FOREHEAD

“Botox is making her forehead heavier and pushing her brows down,” believes Dr. Tabasum Mir. Three areas were likely injected, at a total cost of \$1.5K.

## NOSE

Dr. Shain Cuber, a plastic surgeon who does not treat the reality star, says a probable nose job has “narrowed her bridge and made the tip less rounded.” Price tag for rhinoplasty: \$10K.

## CHEEKS

Filler has seemingly lifted Snooki’s cheeks to give her face a less rounded shape, says Dr. Cuber. Expect to pay about \$3K annually for similar results.

## LIPS

Snooki recently bragged about surgically pumping her chest up to a size C with breast implants — but that’s not the only body part that looks fuller. Dr. Mir believes she has plumped her lips, too. Injections of Restylane or Juvéderm run \$800 and up per syringe.
